

## PROFESSIONAL EXPERIENCE

## CHRISTOPHER J. LYNCH P.E.

### Principal

Christopher Lynch is a professional fire protection engineer and is a Principal with Code Red Consultants. Mr. Lynch has significant experience reviewing architectural and engineering drawings and specifications for conformance with local, state and national codes and standards, and preparing comprehensive fire protection and life safety programs for new and existing buildings. He has experience in designing automatic sprinkler systems and fire alarm systems, has managed the progress of the installation during construction, and has organized and conducted the acceptance testing as the owner's representative. He has also worked with clients and authorities having jurisdiction to engineer resolutions for complex fire protection and life safety issues.

Mr. Lynch has provided fire protection engineering, building code, life safety and accessibility consulting services on a variety of projects including assembly and educational facilities, hospitals, high-rise office and residential buildings, hazardous materials storage and processing areas, and other mixed use buildings. He has significant experience developing code, fire protection and life safety compliance strategies for laboratory building containing large quantities of hazardous materials.

## EDUCATION

Worcester Polytechnic Institute, Worcester, MA  
Master of Science, Fire Protection Engineering,  
May 2008  
Bachelor of Science, Civil Engineering,  
May 2006

## PROFESSIONAL AFFILIATIONS

National Fire Protection Association (NFPA)  
Society of Fire Protection Engineers (SFPE)  
American Society for Healthcare Engineering  
(ASHE)  
MA Registered Fire Protection Engineer
